Introduction

Jenc Investments Limited is a multi-disciplinary Zambian company delivering engineering, fabrication, supply chain solutions, mining maintenance, and technical services to public and private sector clients. Since 2017, the company has maintained a reputation for excellence, dependability, and consistent delivery anchored on a team of highly skilled engineers, technicians and supply specialists.

We support mission-critical operations for mines, government agencies, industrial clients and commercial institutions through timely service delivery, strong technical capacity and strict adherence to safety and quality standards.

Vision

To be the leading provider of innovative engineering and supply solutions, setting the industry standard for excellence, reliability and customer satisfaction.

Mission

To consistently deliver unparalleled value and reliability through innovative solutions, exceptional service and operational excellence.

Core Values

01

Reliability

We are committed to delivering products and services on time, every time, ensuring customer Trust and confidence.

02

Quality

We maintain the highest standards of quality in every product and service we supply, ensuring customer satisfaction and loyalty.

03

Customer Centric

We are dedicated to understanding and anticipating the needs of our customers, providing personalized solutions for all.

04

Sustainability

We are committed to environmental responsibility, minimizing our environmental footprint and promoting eco-friendly practices.

What we Do

At Jenc, we supply a wide range of products and services and our team is always committed to understanding your unique requirements and delivering tailored solutions that drive your success. Whether you're looking for Mechanical engineering services or PPE products, we have the expertise and resources to meet your demands.

01 Mining Maintenance Services

We provide mining maintenance service with well experienced engineers and tradespeople who are fully committed to safety.

The following are our services;

- **Field service support (breakdowns)** on all mining gear ranging from drills, load and haul and ancillary equipment.
- **Specialised maintenance**, we have specialised personnel for specific machine/ equipment makes and models, Epiroc, Sandvik, Caterpillar (CAT), Komatsu, Liebherr, Hitachi, Volvo etc.
- **Machine rebuilds**, major shutdown labour hire and tooling. Labour hire, also known as temporary staffing or contingent workforce management, plays a crucial role in today's dynamic business environment. It provides businesses with the flexibility to adjust their workforce according to fluctuating demand and can often be more cost-effective than hiring permanent employees. At Jenc, we always strive to ensure that our labour is hiring skilled and trained people to provide that best possible solutions to keep your business operations running effectively.

02 Civil & Structural Engineering

Civil engineering play a crucial role in shaping the built environment and infrastructure that we rely on in our daily lives. The planning, design, construction, and maintenance of critical infrastructure such as roads, bridges, airports, railways, water supply systems, and wastewater treatment facilities cannot be done without civil engineers. Our team of experts are at hand to provide the following services:

- Roads and Highways
- Bridges and Viaducts
- Railway Infrastructure
- Water Supply and Distribution Systems
- Urban Infrastructure
- Dams and Hydraulic Structures
- Construction of educational, health, Commercial and Residential Buildings.

03 Mechanical Engineering

Mechanical engineering plays a crucial role in various aspects of modern society due to its broad and interdisciplinary nature. From designing, developing, and manufacturing a wide range of products, from consumer goods to industrial machinery to developing energy systems, including traditional sources such as fossil fuels and emerging technologies such as renewable energy sources like solar, wind, and hydroelectric power. We provide the following services:

- Product Design and Development
- Production Processes
- Energy Systems
- Power Generation
- Material Handling and Equipment Design

03 Electrical Supplies & Installations

We cover the full spectrum of electrical engineering solutions, including material supply, design, installation, testing, commissioning, upgrades, and ongoing maintenance for industrial plants, commercial buildings, residential complexes, oil & gas facilities, and infrastructure projects. We provide the following services:

- **Supply of Electrical Equipment & Materials:** Power & control cables, Complete lighting solutions, Switchgear, Control & automation panels, Transformers etc.
- **Electrical Installation:** Cable laying, Structured cabling, Internal & external lighting and small power installations etc.
- **Testing, Commissioning & Maintenance:** Relay injection testing, Preventive & predictive maintenance contracts etc.

04 Industrial & General Supplies

One-stop procurement and stockist services for maintenance, repair, and operations materials, with bulk supply, kitting, vendor-managed inventory (VMI), and just-in-time delivery options.

- **Tools & Equipment:** Hand tools, Power tools, Measuring & precision instruments, Lifting & rigging equipment etc.
- **Consumables & Abrasives:** Grinding/ cutting discs, Drill bits, taps & dies, inserts etc.
- **Lubricants, Greases & Chemicals:** Industrial lubricants, High-temperature & food-grade greases etc.
- **Welding & Cutting Accessories:** Welding electrodes, Welding machines, torches, regulators, hoses etc.
- **Fasteners & Hardware:** Bolts, nuts, washers, studs (mild steel, stainless, high-tensile, B7/2H, Inconel, Monel) Anchor bolts, U-bolts, threaded rods. etc.

05 Water Treatment

In a world full of pollution, Water treatment services ensure that drinking water is safe and free from harmful contaminants. It also plays a crucial role in preserving and protecting natural ecosystems as well as promoting the sustainable use and conservation of water resources. At Jenc our trained professionals specialise in providing the following services:

- Potable Water Treatment
- Wastewater Treatment
- Desalination
- Groundwater Remediation
- Stormwater Management
- Agricultural Water Treatment

06 Cleaning Products

Whether at home or the office Cleaning products play a vital role in maintaining cleanliness, hygiene, and sanitation. They help prevent the spread of infectious diseases by effectively removing dirt, germs, bacteria, viruses, and other pathogens from surfaces. They also promote personal and environmental hygiene by keeping living and working spaces clean, fresh, and odor-free. At Jenc, we supply the following:

- All-Purpose Cleaners
- Disinfectants and Sanitizers
- Glass Cleaners
- Bathroom Cleaners
- Kitchen Cleaners
- Carpet Cleaners

07 PPE

In a busy work environment, having proper PPE (Personal Protective Equipment) is a must. It helps protect workers from occupational hazards and risks that could cause injury, illness, or even death. It is also required by law or regulatory standards to ensure workplace safety and protect workers' health. They are a wide range of PPE products, at Jenc we categorise and supply them as follows;

- Head Protection
- Eye Protection
- Hearing Protection
- Respiratory Protection
- Hand Protection
- Foot Protection

08 ICT Equipment

In a fast changing world, ICT equipment has become of paramount importance especially in the office space. It enables seamless communication among employees, teams, clients, and stakeholders. It also automates repetitive tasks, streamlines workflows, and provides access to essential information and resources, leading to increased productivity in the workplace.

- Networking Equipment
- Software Applications
- Storage Devices
- Peripherals
- Servers and Data Centers
- Smart Devices and IoT Products
- E-commerce Platforms

09 Office Furniture

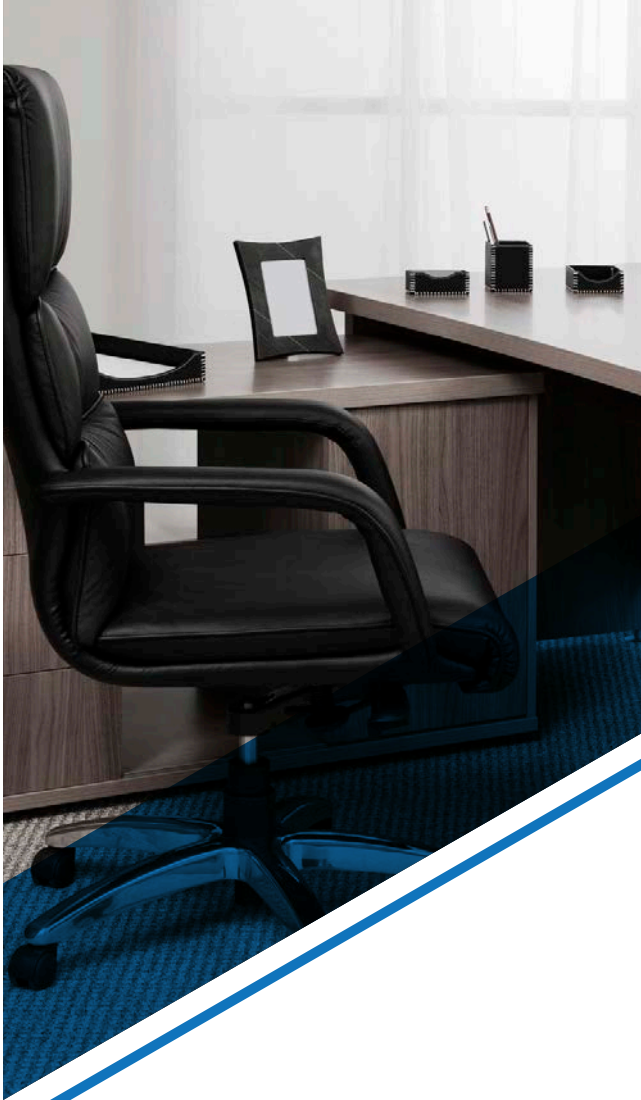

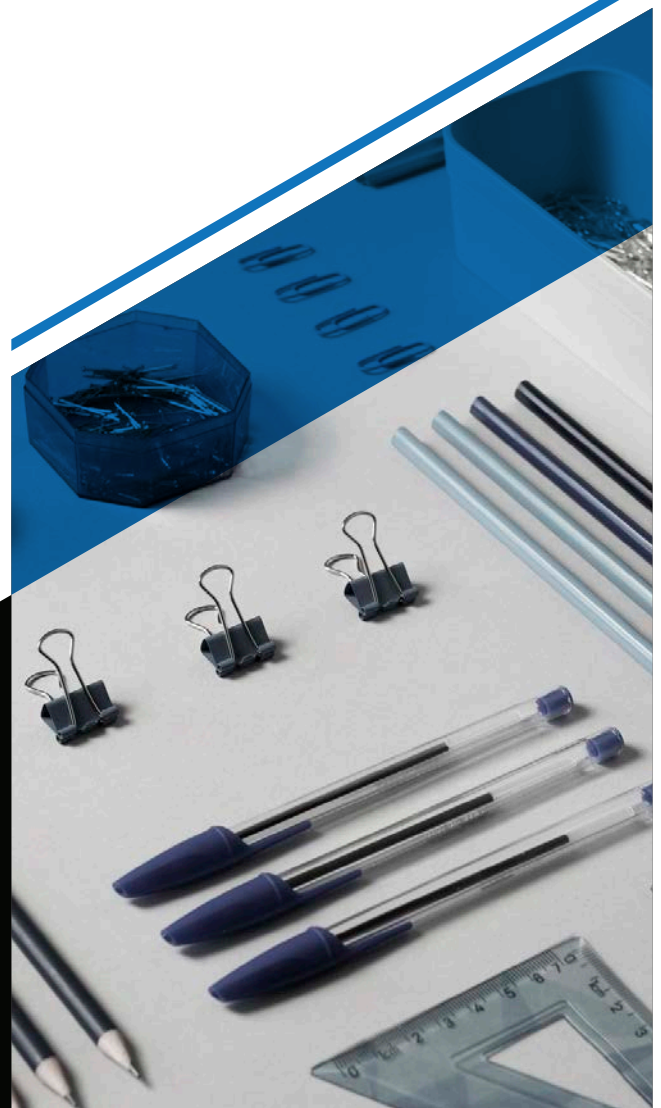

In every work space, productivity can not be achievement without proper office furniture. For example, chairs, desks, and workstations, are designed to provide ergonomic support and promote good posture, reducing the risk of musculoskeletal disorders and discomfort among employees. High quality office furniture provides comfortable seating and waiting areas for clients, visitors, and guests, enhancing their experience and perception of the organization. We supply the following types of office furniture.

- Desks
- File Cabinets
- Chairs
- Cubicles and Workstations
- Breakroom Furniture
- Conference Tables
- Reception Furniture

10 Stationery Products

Stationery holds significant importance in both professional and personal contexts. Stationery items like letterheads, envelopes, and notecards facilitate formal communication. Customized stationery with company logos, colors, and branding elements serves as a powerful marketing tool. It reinforces brand identity and helps businesses stand out from competitors. At Jenc we supply in both retail and wholesale quantities the following stationery products:

- Paper Products
- Writing Instruments
- Office Supplies
- Filing and Organization
- Envelopes and Mailing Supplies
- Calendars and Planners
- Art and Craft Supplies

Competitive Advantage

Strong mining sector expertise

Our competitive advantage lies in a technically accomplished workforce whose industry knowledge and hands-on experience enable us to provide effective, reliable and consistent support to mining operations. We deliver solutions engineered with excellence to meet the demands of modern mining environments.

Skilled local and international labour pool

Access to experienced professionals from regional talent and global recruitment networks.

Rapid mobilisation for large-scale and urgent projects

Proven ability to quickly deploy teams, equipment, and resources for high-priority initiatives.

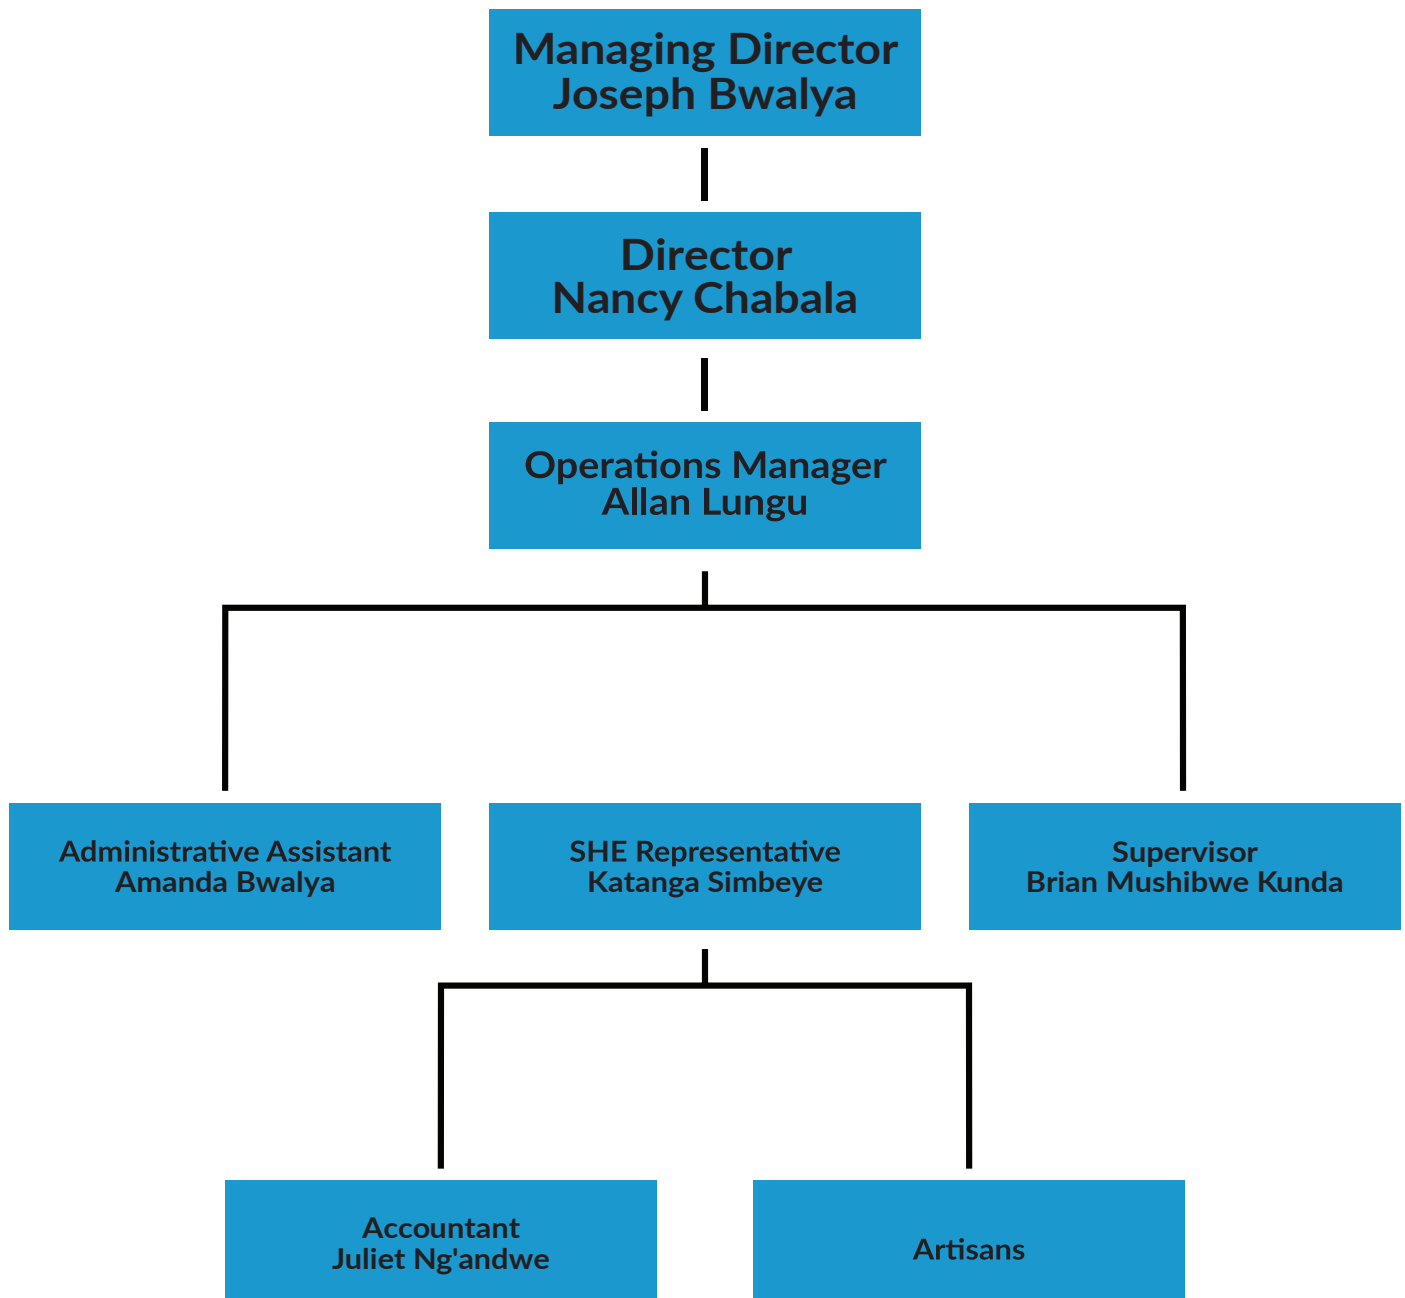

High compliance and regulatory alignment

Consistent adherence to safety, environmental, and industry standards across jurisdictions.

Proven track record of on-time delivery and quality service

History of completing projects within schedule and meeting client expectations for performance and reliability.

Local Labour Organizational Chart

Joseph Bwalya

Team Leader & Principal Technician

- Diagnostics, preventive maintenance, major repairs
- Specialized in Atlas Copco and Sandvik drilling systems
- Strong safety focus and team collaboration

13 years plus Experience

- MACA Mining (Australia)
- Edge Contracting (Australia)
- Epiroc Zambia Ltd (Zambia)
- First Quantum Minerals (Zambia)

Alfian Rayo

Service Coordinator & Technical Training Lead

- Field service management and equipment commissioning
- Skilled in client communication and service strategy
- Strong focus on safety and technical training

17 years plus Experience

- MACA Mining (Australia, Cambodia)
- PT Epiroc Southern Asia (Indonesia)
- Atlas Copco Nusantara (Indonesia)

Allan Lungu

Operations Manager

- Strong analytical Skills, Strategic Planning and Change Management
- Strong in budgeting, financial modeling, payroll, and management reporting
- Financial reporting and cashflow Management

14 years plus Experience

- Jenc Investments Ltd
- PJP Associates (Zambia)
- Ultimate Ingenuity (Z) Ltd
- National Assembly of Zambia
- Mafra Enterprize

Sendi Septian Pratama

Technical Advisor

- Skilled in operation, repair, commissioning of blast hole rigs
- Preventative maintenance on computerized rigs
- Expertise in fire suppression and auto-lubrication

15 years plus Experience

- MACA Mining (Australia)
- MACA - Cambodia
- Epiroc (Indonesia)a)

Casper Britz

Senior Auto-Electrician

- Advanced diagnostics and electrical repair expertise for Epiroc drills, CAT trucks, and
- Mercedes Benz systems
- Extensive field service and breakdown experience in mining and heavy industry

Experience - 25 years plus

- Mader Contracting Group (Australia)
- Heathgate Resources (Australia)
- Fortescue Metals Group Ltd (FMG)

Sugeng

Lead Technician & Maintenance Trainer

- Expertise in diagnostics, preventive maintenance, component rebuilds
- Expert in Epiroc drills
- Trainer with advanced skills in hydraulic systems

18 years plus Experience

- MACA Mining (Australia, Cambodia)
- PT Epiroc Southern Asia (Indonesia)
- Atlas Copco Nusantara (Indonesia)

Kafubu Water & Sanitation Co.	Supply & Delivery of 10,000-Litre Tank with Booster Pump Materials	Supply and delivery of a 10,000-litre water tank along with fencing and booster pump materials to the client site.	Oct-25	
North Western Energy Corporation (NWECC)	CAT 428F TLB Servicing & Mechanical Restoration	Full service intervention including: (i) Mechanical checks (ii) Hydraulic system inspection and hose replacements (iii) Comprehensive Report.	Nov-25	

Governance & Quality Management

Jenc Investments upholds strong corporate governance, ensuring transparency, accountability, and strategic oversight through a dedicated Board of Directors, clear policies, and structured reporting.

The company maintains high-quality standards by adhering to industry regulations, continuously improving processes through audits and feedback, and investing in employee training and competency development.

Risk management is proactive and comprehensive, involving identification, assessment, and mitigation of operational, financial, and compliance risks. Regular reviews and adherence to legal and regulatory requirements ensure resilience and safeguard stakeholders' interests.

Our

Health & Safety Plan

Section	Details
Health and Safety Objectives	Zero Incident Goal: Strive for a zero-incident workplace by proactively identifying and mitigating hazards.
	Compliance with Regulations: Adhere to local, industry, and international safety standards, including OSHA and ISO standards where applicable.
	Continuous Risk Assessment: Perform ongoing risk assessments throughout the shutdown process.
Roles and Responsibilities	Project Manager: Oversees the implementation of the health and safety plan, ensuring compliance and reporting incidents.
	Safety Officer: Conducts training, monitors safety protocol adherence, and enforces corrective actions.
	Supervisors: Ensure workers follow safety procedures, conduct toolbox talks, and report hazards.
	All Personnel: Responsible for following safety protocols and using PPE appropriately.
Hazard Identification and Risk Assessment	Pre-Job Hazard Analysis (JHA): Identify and document potential hazards specific to each task before work begins.
	Regular Safety Inspections: Conduct daily inspections and risk assessments throughout the shutdown.
	Hazard Communication: Communicate hazards and mitigation strategies through briefings and signage.
Personal Protective Equipment (PPE)	Mandatory PPE Requirements: Hard hats, steel-toed boots, safety goggles, gloves, plus additional PPE depending on tasks.
	Inspection and Maintenance: Regularly inspect PPE for damage or wear and replace as necessary.

Section	Details
Safety Protocols and Procedures	Lockout/Tagout (LOTO): Prevent accidental machine startups during repairs; only authorized personnel may lock, tag, and verify equipment isolation.
	Working at Heights: Use fall protection equipment and enforce strict procedures.
	Confined Space Entry: Conduct atmospheric testing and establish emergency extraction plans.
	Tool and Equipment Safety: Ensure all tools are inspected and prohibit defective tools.
	Hot Work Permit System: Enforce a permit system for welding, cutting, and similar operations.
Health and Safety Training	Induction Training: Mandatory induction covering safety protocols and emergency procedures for all personnel.
	Task-Specific Training: Provide training on specific tasks to ensure personnel are qualified.
	Daily Toolbox Talks: Briefings to discuss daily tasks, hazards, and preventive measures.
Emergency Response Plan	Emergency Contact List: Maintain a list of emergency contacts, including onsite responders and local hospitals.
	Evacuation Procedures: Develop and communicate evacuation routes and assembly points.
	Onsite First Aid: Provide a first aid kit and designate trained responders.
	Incident Reporting and Investigation: Document incidents, conduct investigations, and implement corrective actions.
Monitoring and Review	Safety Audits: Conduct regular audits to assess compliance with protocols.
	Daily Safety Inspections: Safety officers perform inspections to identify risks and verify adherence.
	Post-Shutdown Review: Review safety performance, document lessons learned, and update the health and safety plan for future shutdowns.
